Spanish Premier Dies By Assassin's Bullet

Six Killed in Indiana Powder Mill Explosion

CANALEJAS IS SHOT DOWN BY ANARCHIST

Spanish Statesman Fired Upon While Entering Ministry of Interior and Dies Instantly.

SLAYER CAPTURED; COMMITS SUICIDE

Madrid, Spain, Nov. 12.—The Spanish premier, Jose Canalejas, was shot dead today while entering the ministry of the interior here to attend a cabinet meeting.

His assailant, Manuel Pardo Serrato Martin, aged 28, of El Grado, province of Huesca, was arrested and then committed suicide.

The assassin was captured by the police. He gave the name of Manuel Pardo Serrato Martin, and said he was a native of El Grado in the province of Huesca.

Martin fired four shots at Premier Canalejas as he was entering the ministry of the interior to attend a cabinet meeting. Two of the shots struck the statesman behind the right ear and he fell dead on the spot.

The assailant was 28 years old and is believed to have been an anarchist.

Details of the Crime.

The assassination of Premier Canalejas took place at half past eleven this morning in the Puerta del Sol, in front of a book stall at the corner of Carretas street, near the entry to the ministry of the interior.

Martin fired four shots from his revolver at close range and three of the bullets struck the premier who fell dead on the sidewalk. Some bystanders seized the assassin and handed him over to the police. He then turned his revolver on himself and it is believed he has since died from the self-inflicted wound.

Martin is said to have been closely connected with anarchists, but it is not known whether his crime was premeditated or whether it was committed on his own initiative. Political ferment always exists in Spain, but nothing has been reported within a recent period which could in any way be connected with the crime.

A strict censorship was instituted by the authorities on the telegraphs and telephones immediately after the commission of the crime and, for several hours it was impossible to communicate with the outside world.

Jose Canalejas y Mendez, prime minister of Spain, who was assassinated today, was selected to form the Spanish cabinet in February, 1910. He was a

leader of the monarchial democratic party which came into power on the resignation of the liberal cabinet headed by Senor Moret y Prendergast.

Senor Canalejas, who belonged to a wealthy and prominent family, came to the front in political life only in 1900 when he took a leading part in the campaign against clericalism. He had, however, taken great interest in politics as a student and public speaker for many years before that. At the age of 25 he became a member of the Spanish parliament, attaching himself to the advanced liberal section.

He became a member of Premier Sagasta's cabinet in 1902 as minister of agriculture. He introduced many reforms, and especially in regard to the working classes, and eventually created a department of labor.

When he was asked in February, 1910, by King Alfonso to form a ministry the request caused a great sensation as it was the first time in the history of Spain that an advanced radical had been placed at the head of the ministry. His cabinet has since undergone many changes, but he had always retained the leading place. He had much to do with the signing of the agreement between Spain and France on the question of the future of Morocco, which was recently satisfactorily settled.

BOND OF UNITY CEMENTED ANEW

Cornerstone of Confederate Monument is Laid at Arlington.

ADDRESS BY BRYAN

Washington, Nov. 12.—The laying of the cornerstone of a great monument in Arlington National cemetery, to the dead of the Confederacy, was the principal event today in the opening program of the annual convention of the United Daughters of the Confederacy.

Thousands of women assembled to pay tribute to the memory of the men who fought for the south, surrounded the site of the monument to witness the ceremony conducted by Col. Hilary A. Herbert, former secretary of the navy. William Jennings Bryan was the orator of the day.

The monument is to occupy a plot in the center of the Confederate section of the national cemetery, where 260 of the men who died in the Confederate cause, are buried.

The addresses of Mr. Bryan and Mr. Herbert emphasized the unity of sentiment between north and south, which has largely obliterated sectional feeling and made possible the erection of a final memorial to the southern dead in the midst of scores of monuments to northern soldiers and northern brigades.

Following the laying of the cornerstone, work on the Confederate shaft is to be pushed without delay, and officers of the Daughters of the Confederacy hope to unveil the monument before the reunion of Union and Confederate veterans at Gettysburg battlefield next July.

Sir Moses Ezekiel, the sculptor, has practically completed the design in which a woman, typifying the south extends a laurel wreath over the graves of the dead while her left hand rests upon a plow.

***** FIGHT OVER WHOSE LEAD IT WAS; TWO MEN MAY DIE. *****

Hammond, Ind., Nov. 12.—While entertaining a party of friends at a card game Philip Miotka and Frank Debor became involved in an altercation over whose lead it was and both men may die as a result of the fight. While Debor was kicking Miotka in the ribs the latter was slashing Debor with a razor. Five of Miotka's ribs were broken and he was internally injured. Debor's face was painfully lacerated and he was stabbed in the back. The guests fled, leaving the men on the floor, where the police found them.

"GUILTY" IS SCHRANK PLEA

Says He Shot Roosevelt as a "Menace," Not as a Citizen.

COURT TO NAME A LUNACY BOARD

Ex-President's Assailant is Taken Back to Cell After Arraignment.

Milwaukee, Wis., Nov. 12.—John Schrank pleaded guilty today to the shooting of Colonel Roosevelt. The court then decided to appoint a commission to examine Schrank as to his sanity.

Schrank in his plea sought to distinguish between an assault on Roosevelt as a "menace" and an attack on Roosevelt as a citizen. Municipal Judge A. C. Beckus announced upon reading a petition of District Attorney Alfred C. Zabel, that he would later today name a commission to examine Schrank's mental condition.

Small Crowd Present. Fewer than 150 persons listened to the proceedings and watched the small compact form of Schrank as he stepped slowly to the bar and entered his plea.

Prosecution Will Result as White Slave Case Outcome.

THE NEWS OF INDIANA

Muncie, Ind., Nov. 12.—As a result of the supposed "white slave" case of Viola Vaughn, a white girl, 17 years old, who was rescued by the police from a negro resort, the authorities contemplate a wholesale prosecution of "coke" and opium joints, which are said to be numerous here. The Vaughn girl it is said will tell all she knows.

It is probable before the investigation is concluded certain local druggists will be involved. It is said by some that a few drug stores in the city cater largely to the "coke" and opium trade of the negroes and that Viola Vaughn is not the first white girl to be drawn into the meshes.

COURT HOUSE LOOTED.

Burglars Operate in Basement of Indianapolis Building.

Indianapolis, Ind., Nov. 12.—Burglars looted offices in the basement of the courthouse some time last night but nothing of much value was taken. Drawers were pulled out and their contents scattered about the rooms. Indications were that the night visitors got in through a window in the assessor's office in the southwest corner of the court house basement.

A TON OF DYNAMITE LETS GO NEAR GARY

Disaster at Plant of Aetna Powder Company Causes Havoc and Shakes Many Surrounding Towns.

PASSENGERS ON INTERURBAN ESCAPE

Gary, Ind., Nov. 12.—Six men were killed by an explosion of 2,000 pounds of dynamite in one of the pack houses at the plant of the Aetna Powder company, near here, this morning.

The dead include Wm. Halpin, foreman; Charles Schmidt, C. O. Carlson and three unidentified workmen. A number of workmen were reported to have been injured, but officials of the company said this was incorrect.

The men who lost their lives had arrived at the plant for the day's work and were repairing one of the packing machines when the explosion occurred. The dynamite was loose in 100 pound lots on the packing trays and but for this the damage would have been much more severe.

A South Shore Interurban train was within a few hundred yards of the plant when the explosion occurred, but no one on the train was injured, although the force of the blast broke windows in the town of Miller, a mile distant.

The pack house was sunk in the ground, only the sky light being above the surface. All other buildings composing the plant are similarly constructed and are widely separated.

Following the explosion the entire population of the little town turned out to search the debris for bodies of the victims.

WRECKAGE HURLED A MILE.

All Towns Within Radius of Ten Miles Jarred by Explosion.

Chicago, Nov. 12.—At the local offices of the Aetna Powder company it was stated that first reports of the explosion at their plant in Indiana gave the number of killed as "four or five," but made no mention of wounded persons. The explosion occurred before the hour at which the employees were due at the plant and no light could be shed on its cause.

Telephone messages from Gary, Ind., and other towns in that vicinity told of the extent of the jar caused by the detonation, most of the communities within a radius of ten miles of Aetna lake having been shaken. Passengers on interurban electric lines arriving at Gary said that debris from the wrecked mill was seen a mile or more from the site of the plant.

DEADLOCK OF POWERS HOLDS

European Situation Over the Balkan Struggle Still Tense.

THE NEWS OF INDIANA

London, Nov. 12.—The deadlock in the international political situation brought about by the Balkan war continues. Neither Austria-Hungary nor Serbia has given way on a single essential point in regard to the future of Albania and the proposed occupation by the Serbians for a port on the Adriatic sea.

Despite this and the further fact that the Russian press is daily intensifying the war-like tone of its support of the Serbian cause, some of the European

Abraham Oppenheimer Dies at Home of Daughter in Logansport.

CAME HERE IN 1838

Abraham Oppenheimer, pioneer resident of Fort Wayne and prominent business man of early days in this city, died Monday night at the home of his daughter, Mrs. Joe Weiler, in Logansport, at the advanced age of 93 years. For the past eight or ten years Mr. Oppenheimer had made his home with his daughter.

He was born in Germany and came to Fort Wayne in 1838, living here until after his retirement from business and after the death of his wife, which occurred at the family home on West Berry street, located on the present site of the Elks' temple. Mr. Oppenheimer was long engaged in the mercantile business in this city, first as a member of the clothing firm of Nirdlinger & Oppenheimer, which erected the building at the southwest corner of Calhoun and Columbia streets, now occupied by one of the Meyer company's drug stores. Later Mr. Oppenheimer was in the commission business. He was a man of sterling integrity, very widely known and universally esteemed, and during his active years occupied a prominent place in Fort Wayne business circles.

Mr. Oppenheimer was a member of Fort Wayne lodge, No. 14, I. O. O. F. He is survived by three daughters—Mrs. Rabbi A. Guttmacher and Mrs. Herman Nathan, of Baltimore, and Mrs. Weiler, of Logansport.

WHOLE TOWN ON HAND FOR TRIAL

Jury is Secured for Case of Men Charged With Tarring Girl.

WELCH CASE IS FIRST

Norwalk, Ohio, Nov. 12.—A large proportion of the population of West Clarksville, twelve miles east of here, came to this city, the county seat, today, to be present at the trial of the six men charged with tarring Minnie La Valley, 19 years old, on the night of Aug. 30.

The specific offense charged is "riotous conspiracy." The defendants are Reginald Thomas, town constable; Joseph and Carl Sly, Harlow and Ernest Welch and Joseph Cummings. They were indicted three weeks ago.

Forty witnesses were in court in answer to subpoenas when Judge John T. Garver, of Fremont, took the bench. The trial room was crowded with people anxious to see the girl and the men she accuses.

Minnie La Valley claims that on the night of August 30, six men hauled her behind a building at West Clarksville, and after stripping her, poured red paint over her. Wm. Smith, constable of Clarksville township, will be tried later for alleged perjury in connection with the grand jury investigation of the case.

Mr. Perry's Rosy-Cheeked Apples

THE OTHER DAY, O. L. Perry, of the local office of the Western Union, was delighted when his sister-in-law drove in from the farm, stopped in front of the office and called him out to give him a nice lot of rosy-cheeked apples which she had selected from the best product of her orchard. Mr. Perry when he took them into the office, and carefully placed them in a box which he secured under one of the counters where they would be safe from covetous eyes and teeth. A short time after this, however, one of the line-men came into the office and, while looking for something, accidentally drew out the box containing the apples. Mr. Perry explained to him that the present was from his relative and that he couldn't treat one without having to treat all, and it was really necessary to take the entire lot home.

"And don't tell Black they are here," he added. Wm. E. Black is the manager of the office.

Sometime after that, Mr. Perry was out of the office for a while, and when he returned he witnessed a sight which made his cheeks burn with indignation. He tried to say something, but the words choked him. Every man, woman and messenger boy about the place was complacently munching a rosy-cheeked apple. No one said anything, but everybody kept right on with his work. Mr. Perry wandered about the office for a few minutes, during which time he became warmer and cooler in alternating streaks. In the first place, it occurred to him that those who found the apples didn't know to whom they belonged, and hence were not to be censured; on the other hand, they shouldn't have taken them without finding out whose they

A Lincman came in.

were. Then, again, he argued to himself, that possibly if he were put in the same place with the other people he might have done the same thing; but, no—he would never have stooped to such a trick. At about this time, it occurred to him to investigate and see if all the apples had been taken. He drew out the box and—lo!—not a one was missing!

It seems that Manager Black, learning about the apples, had sent to a fruit stand and bought some apples of the same kind. After giving each person an apple he requested them not to eat them until Mr. Perry put in an appearance. And the joke worked real nicely.

MAY RETALIATE ON THE BARBERS

"Chiros" Threaten Revenge if Prosecuted by the State Board.

TRIAL IS UNDER WAY

Indianapolis, Nov. 12.—If the state board of medical examination and registration continues its fight against chiropodists, the latter will "put it up" to the state board to prosecute barbers, who give massages and treatments for dandruff and pimples, according to F. L. Carey, of Anderson, president of the Indiana School of Chiropody. Mr. Carey made his statement last night after the adjournment of criminal court, where Leroy E. Fuller, a chiropodist, is being tried, charged with practicing medicine without a license.

According to Mr. Carey he had a conference with Dr. William T. Gott, secretary of the state board of medical examination and registration, and suggested that barbers also should be prosecuted if the chiropodists are arrested.

Agrees to File Cases. He said that Dr. Gott agreed to file cases against barbers if the chiropodists will furnish the names and evidence to the state board. At least fifty names with the evidence will be given to the state board, Mr. Carey said.

Fuller's trial began yesterday. The greater part of the day was taken in obtaining a jury. Dr. Gott, who had the affidavit filed against Fuller, was on the stand when court adjourned. The state contends it is not necessary to give medical treatment to violate the statutes against practicing medicine without a license, and that the massage and other treatments administered by the chiropodists is a violation of the law.

During cross-examination, Dr. Gott said that the case against Mr. Fuller was filed after a detective hired by the state board and paid by him personally had reported evidence on which the case is based. The case is the first of the kind to be tried here.

SOCIALISM TO RENEW EFFORT

Will Fight for Recognition by Federation of Labor.

OTHER SUBJECTS UP

Rochester, N. Y., Nov. 12.—With the reports out of the way the delegates to the annual convention of the American Federation of Labor today settled down to discussion and business that may make this convention a memorable one.

There is a general sentiment that the annual fight for socialism will again be waged here and they are holding meetings each evening. President Gompers says that the ever present question of the eight hour day and the abolition of child labor undoubtedly will be discussed. The situation among the metal-trade workers on the Pacific coast is certain to attract attention. The fight for an eight hour day in those industries has been eventful, but not altogether successful. The work of organizing the employees of the United States steel corporation has not met with such success as to satisfy the labor leaders, and it is likely that measures will be adopted to make the movement more effective.

Labor's Future Bright.

Declarations that union labor is making giant strides toward its ideals and bright predictions for its future were contained in the reports of the officers of the American Federation of Labor.

These reports, with a partial report from the credentials committee, occupied the opening sessions. President Samuel Gompers twice referred to the McNamara case; once in his annual report, when he reviewed the Los Angeles situation and urged a movement for the general improvement of the condition of the iron workers, and again, indirectly, in his opening remarks when he protested against the holding up of the "heretics of unionism" as examples of what that movement stands for.

No organization of men, President Gompers declared, represents a greater power for the advancement of humanity along right lines.

"The forms of labor have been constantly refined," he added. "Free workers do not employ the methods of slaves."

Mr. Gompers' report was given close attention and was frequently interrupted by applause. This was principally marked when he declared against compulsory arbitration laws and for the recall of judges in the states and the reappointment of federal judges every four years.

"We have had enough government by dead men, dead issues, dead principles and ironclad restrictions," he said. "We must have restored to the people the unrestricted power of changing their statutory or organic laws whenever they find the occasion and necessity warrant it."

The reading of the annual report of the executive committee occupied the morning session today and reached into the afternoon. It considered every phase of the federation's work and welfare during the past year. President Gompers announced that a new departure in the council's report is that the reports by individual officers are eliminated. This year's report showed that two organizations had been added to the federation during the past year, the Diamond Workers Protective Union of America and the Brotherhood of Railway Express Workers of America.

RITE FOR DEAD COSTS HER LIFE

Candle Woman Lit at Her Parent's Grave Set Her Afire.

SHE DIES AT HOSPITAL

Chicago, Nov. 12.—Mrs. Mary Kamratke, of 1342 L-ean street, died yesterday at St. Elizabeth's hospital as a result of burns incurred on All Souls' day while she was lighting candles on the graves of her parents in St. Adalbert's cemetery in Norwood park.

Mrs. Kamratke's parents had been dead for years. Every All Souls' day she had been in the habit of going to the cemetery, lighting a number of candles set on the graves, and remaining until the candles had burned out. The ceremony, she believed, contributed to the repose of the dead.

This year, just after she had lit the last candle, her skirt caught fire from another. Before she realized her danger her dress was in flames.

She began to scream, and her cries attracted the attention of a number of other women who were carrying on the same ceremony over other graves. They, however, were unable to aid her because of the danger of igniting their own clothing.

A grave digger came to the rescue. He put his coat around the woman, threw her down on the top of a new grave and extinguished the fire in the damp earth. Then he carried her to the cemetery office. She was there without medical attention for three hours when Dr. Anton Malachukowski arrived.

By that time Mrs. Kamratke had lost consciousness. She was hurried to St. Elizabeth's hospital, where an examination showed her body was covered with burns and there was little chance of her recovery.

The woman leaves a husband and nine children.

GOVERNMENT MEN WANT A PENSION

Local Clerks and Carriers Will Meet to Perfect Organization.

URGE PENSION BILL

A meeting of Fort Wayne mail clerks and carriers will be held tomorrow night in the court room of the federal building, at which time they will discuss the advisability of perfecting an organization for systematic work toward having congress pass a bill providing a pension fund for superannuated government employees.

Postmaster General Hitchcock, in a recent report, recommended a pension fund, and the matter has been up for consideration many times, but nothing definite has been accomplished. It is understood that civil service employees throughout the entire country are to organize with a view of securing an appropriate bill.

If an organization is perfected among the postal employees of Fort Wayne, it will keep in direct touch with Congressmen, urging him to support any bill which may be presented for the provision of a pension fund for superannuated government men.

It is said that several bills have been before congress in the past, but have been tabled. One of the bills was to provide a pension fund by assessment on salaries. The other was for a straight out and out pension, to be appropriated by the government.

The meeting tomorrow night is to be attended by Postmaster R. B. Hanna and Assistant Postmaster William J. Hees.

VERY CARELESS WITH HIS NITRO

(Continued from Page 1.)

At Kansas City McManigal said he left his nitroglycerin successively at the railway station, a boarding house and at a hotel.

"I had one 10-quart can and one 2-quart can," said McManigal, "to divide into three bombs. I went to a paint shop and got three 4-quart varnish cans, distributing the explosive in the new cans. With alarm clock attachments I took the stuff out and buried it in a swamp near the bridge. While working in the swamp I thought I saw someone coming so I hurriedly hid the bombs in the weeds. On returning I could find only two of the bombs.

"I set the bombs to explode that night and went back to town.

"The explosion failed to come off. I found the batteries were too weak and replaced them the next day. The explosion took place about 8:30 p. m. Aug. 23.

"From Kansas City I went to Peoria, Ill., where I was to do a job. I got in touch with 'Edward Smythe, the iron workers' business agent.

"Smythe took me through a corn field and pointed out the plant of the Lucas Bridge and Iron company, saying 'that's the job to be blown up.'"

McManigal said he caused the Peoria explosion Sept. 4. It damaged six adjacent buildings.

After an hour's session court adjourned until this afternoon on account of the illness of Allen Spaulding, a juror. A physician stated Spaulding was suffering from a slight attack of vertigo in consequence of being kept constantly in court and would recover by this afternoon.

RICKETTS IS IN SEARCH OF WIFE

Believes She Was Drugged and Kidnapped After a Stay Here.

HUNT AS YET FUTILE

Ernest Ricketts, a government employee living at Detroit, is convinced that his wife, Lillian, was drugged and kidnapped on a Wabash train that left here on the morning of Sept. 23 last and which she is supposed to have boarded on her way to Maumee, O., to wait the return of her husband from Indianapolis. They were arranged to go to South America and were taking care of some property interests before leaving.

They were guests at a hotel here during the time they were in the city. Working on the theory that a man on this train gave a woman a cup of coffee at one of the stops and that she afterward became ill and was ill when she left the train with the man at Toledo and that this woman is his wife, the husband has spent his time and money in a search for her.

An acquaintance here to whom he applied for information told him that he believed the wife had eloped, but he scouted the idea and is still looking for her. He has been following the course of a man and woman who have been traveling all over the country and who have been seen at St. Louis, Cleveland and other cities, but Chief Abbott, of the police department, does not believe this is the couple, although there is a suspicious circumstance in the change of routing of some trunks checked by this pair from Benton Harbor, Mich., to Fort Wayne.

Detectives here watched for the trunks but they did not appear and they were not at Wabash where they would have been transferred from the Big Four to the Wabash under the original routing. This man once lived or had a brother who lived in Fort Wayne.

Although it has been stated that the wife was known in Fort Wayne and had visited here nobody was found during the day to confirm this story and persons thought to have been familiar with the details deny knowing either of the principals in the case.

Chief Abbott says that the husband's theory is not very well founded and admits that there is possibly an elopement in the case and also says that there is a difference of more than twenty years between the ages of the husband and wife.

chancelleries take a more optimistic view of the condition of affairs, assuming that yesterday's conference between the Austrian and Serbian statesmen at Budapest have tended to relieve the crisis. As far as is known, however, Dr. Danell, the president of the Bulgarian chamber of deputies, simply informed the emperor, Francis Joseph, and his ministers of the position of the Balkan nations in the matter and in return had explained to him for the benefit of Serbia and Bulgaria the policy of Austria-Hungary.

The great powers not directly interested in the outcome, but more particularly Germany, are making strong efforts to reconcile the two antagonists and it is believed Germany has at least induced Austria-Hungary not to press her objections to Serbia's acts until the end of the campaign. Germany has pointed out that the whole question of the Balkans can then be settled by an European conference in which the Balkan nations will have a voice.

Around Adrianople the Bulgarians are going through some of the hardest fighting of the campaign. Dispatches from the Bulgarian side today state losses in the fighting points for the Turkish forts on Kartalope and Papaztop, outside of the fortress of Adrianople. Whenever they wavered, their officers and priests exhorted them to go forward at any cost. The fort on Papaztop was taken only after heavy reserves had been brought up, so stubborn was the Turkish resistance. It is explained by military experts that these two positions do not form part of the fortifications of the city of Adrianople, but are situated on hills some seven miles outside of the advanced fort of Karagach. This latter fort was reported to have been taken by the Bulgarian troops some days ago, but since then the Turks have claimed a repulse of the Bulgarians. The two hills of Karatop and Papaztop, however, afford good starting points for an advance by the Bulgarian besiegers toward the line of fortifications.

300 DELEGATES IN ATTENDANCE

Mothers' Congress Holding

First Indiana Session at Huntington.

BANQUET A FEATURE

Huntington, Ind., Nov. 12.—Dr. Mary E. Jackson, of Chicago, delivered the principal address at the morning session of the first convention of the Indiana branch of the Congress of Mothers' and Parent-Teachers' association in session here. More than three hundred delegates are in attendance.

Mrs. Fred Hoke, of Indianapolis, president of the Indiana branch, presided at the first session, held last evening. In her address which dealt with the object of the association and its certainty for future growth, she argued the organization of branches of the association in every rural school, saying it was fully as important to advance the work in those schools as it was in the city schools.

"Character in the child is moulded before it reaches the age of 11," said Mrs. Hoke, "and if proper training has been given the child up to that age, it is less likely to fall into bad habits. And should it later in life fall into improper habits the chances of throwing off those habits are greater with having had proper early training than if such training had not been given before the age of 11."

Gives Hint to Mothers.

Mrs. Schoff, of Philadelphia, president of the International Congress of Mothers, the second speaker, urged the nursing of children by the mother. Mrs. Schoff has been engaged extensively in settlement work in Philadelphia and has had excellent opportunity to observe the working out of her theory. She said that in districts where she had advocated the nursing of children by mothers the death rate among children had decreased 16 per cent, while in sections of the city where the work had not been carried on the death rate had increased 48 per cent. "It is criminal for mothers not to nurse their children," said Mrs. Schoff.

More than 600 guests were seated at the banquet given in honor of the visiting guests at the Central Christian church. Addresses were given at the banquet by the Rev. J. E. Noll, J. W. Caswell, Mrs. Oliver Cline and Dr. Holen McIlvane. The meetings are being attended by mothers interested in the work being carried forward by the organization.

"GUILTY" IS SHRANK PLEA

(Continued from Page 1.)

Of this number, twenty detectives and half a score of deputy sheriffs kept unnecessary but vigilant watch on all persons in the room not known to them.

The district attorney read the complaint in which Schrank was accused of having made an assault upon the person of "One Theodore Roosevelt, with a deadly weapon and with intent to kill, under which he offered in his preliminary hearing and declare himself not guilty."

"How do you plead to this charge?" the prosecutor asked, the prisoner standing at his elbow.

"Guilty," Answers Schrank.

"Why, guilty, Mr. Zabel," replied the prisoner, in a confused way as though not sure he was following the proper procedure.

"You have heard the complaint," interposed Judge Backus in a loud voice. "You understand that in it you are charged with having attempted to murder Theodore Roosevelt. Do you plead guilty or not guilty?"

"I did not mean to kill a citizen, judge," began Schrank, and the crowd in the court room gave first audible evidence of its interest in the case. "I shot Theodore Roosevelt because he was a menace to the country. He should not have a third term. It is bad that a man should have a third term. I did not want him to have one. I shot him as a warning that men must not try to have more than two terms as president."

him. I think all men trying to keep themselves in office should be killed; they become dangerous. I did not do it because he was a candidate for the party either, gentlemen," he concluded.

"All right," interrupted the court, taking from the district attorney the plea for a sanitary commission for the defendant. He read it hastily while the prosecutor explained its purport.

"The man is insane," said the district attorney. "It would be wrong to sentence him for a crime if he was mentally unsound, just because he was willing to plead guilty."

"I will name a commission at the afternoon session," announced the court. "Let no one leave the court room until the defendant Schrank is outside of the city hall."

Schrank went back to the jail with his guardsmen. Judge Backus announced privately in advance, that having obtained the consent of the physicians, he would appoint on the commission Drs. F. C. Studley, superintendent of a sanitarium;

ON AN OLD CLAIM SUING FOR \$12,000

Former Huntington County Treasurer Seeking to Recover That Amount in Court.

Huntington, Ind., Nov. 12.—An issue of more or less political complexion, dating back about thirty years, has been revived with the filing of a claim for \$12,000 by Henry Beaver, former treasurer of Huntington county, against Huntington county. This case attracted considerable attention throughout northern Indiana a quarter of a century ago through the persistent fight of Mr. Beaver for reimbursement of \$12,000, which he and his bondsmen were forced to pay the county, when his books were found to show a deficit. The case was tried in this county and resulted here. It was then removed to Whitley county and then on appeal went to the superior court.

The high court ruled that Mr. Beaver had no claim against the county. The matter was believed to be dead, but it appeared again at the last session of the state legislature, when a bill was passed authorizing the board of county commissioners to appropriate \$12,000 to reimburse Beaver. The bill as first reported was mandatory. Representative E. M. Wasmuth argued against the mandatory clause and a compromise was effected by substituting the word "may" for "shall." Attorneys for Mr. Beaver refuted the claim last April. The board of county commissioners deferred action until the September term. On the day action was scheduled the bill was withdrawn. Republicans surmised a political move and they were not disappointed, according to subsequent refiling of the claim, within a day or two after the recent election, in which a democratic board was elected.

BABY IN GREAT MISERY WITH RASH

On Face. Spread Until Nearly All Over Body. Crust on Head. Hair Fell Out. Itch Terrible. Cuticura Soap and Ointment Cured.

Monroe, Wis.—"When my baby was six weeks old there came a rash on his face which finally spread until it got nearly all over his body. It formed a crust on his head, hair fell out and the itch was terrible. When he would scratch the crust the water would ooze out in big drops. On face and body it was in a dry form and would scale off. He was in great misery and at nights I would lay awake holding his hands so that he could not scratch and disfigure himself. I tried simple remedies at first, then got medicine, but it did no good. Finally a friend suggested Cuticura Remedies, so I sent for a sample to see what they would do, when to my surprise after a few applications I could see an improvement, and he would rest better. I bought a box of Cuticura Ointment and a cake of Cuticura Soap and before I had them half used my baby was cured. His head was covered with a luxuriant growth of hair and his complexion is admired by everybody and has no disfigurements. I hope other mothers will profit by my experience and not to worry out with poor babies who are tormented with skin and scalp affections." (Signed) Mrs. Annie Saunders, Sept. 29, 1911.

Cuticura Soap and Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little that it is almost criminal not to use them. Sold by dealers throughout the world. Liberal sample of each mailed free with 22-p. book on the skin and scalp. Address postcard "Cuticura, Dept. T, Boston."

New Wabash Station.

Regardless of the fact that it comes somewhat after the manner of the bolt of lightning from a clear sky, news that the Wabash railroad is preparing to erect a new passenger station in Fort Wayne is immensely gratifying. We have stood for the indescribable shack the Wabash has used in this city so long that somehow it had been taken for granted that it would always exist, and must be endured as one of the incurable ills that occasionally afflict a city. Some months ago officials of the Wabash, in a trip over the line, blazoned a pathway of smiles across Indiana by pausing at half a dozen or more of the smaller cities and spreading the glad tidings that new depots were to be erected in each of them. But nothing of that sort was vouchsafed to Fort Wayne. Now it develops that a sort of surprise party was being arranged for our benefit, for preliminary measurements are made and tentative sketches reduced to paper that picture a new passenger station of more or less imposing character in Fort Wayne, and next spring is the date fixed for construction. It is still a matter of regret that there could not have been an agreement between the Pennsylvania and the Wabash for a union station in Fort Wayne, but the city will be too immensely gratified to get any sort of a new Wabash station to quibble now over a little thing like that.

The presence of Governor Marshall as vice president-elect, at the banquet in Fort Wayne Thursday evening, in celebration of the democratic triumph at the polls, will invest the occasion with peculiar interest aside from the fact that the governor is always a favorite here. It had been his plan, in conformity with the practice four years ago and two years ago, to close the campaign with a Saturday night meeting in Fort Wayne. Cancellation of addresses by reason of the death of Vice President Sherman at that time, however, prevented the governor's visit to Fort Wayne, and it is this fact that led him to accept the present invitation to the city from a long list of similar invitation from other sections of the country.

Editor O. H. Downey, of the Churubusco Truth, will hold undisputed rank as the original Wilson man in Whiteley county. Long before the campaign opened Mr. Downey hoisted the Wilson flag, and he stuck to his position steadfastly throughout. As a result of an election wager, a prominent Churubusco merchant mounted a dry goods box on the main street of the town and permitted Editor Downey to hurl two dozen eggs at him at a distance of twenty paces. The fact that the newspaper man was able to hit the target but three times in twenty-four chances, however indicates that he is a considerably better presidential picker than a mound artist.

Lest it be overlooked in the election aftermath, let it be recorded that Eugene W. Chafin, prohibition nominee for the presidency, certainly qualified as a seer even if he failed to bring victory to his party as a candidate. A week before the votes were cast Mr. Chafin in a speech at El Paso, Tex., said: "Wilson will carry forty states, Roosevelt, five, Taft three and Debs and I will divide the others." As a guess, that is pretty hard to equal, and if in 1916 Mr. Chafin should predict his own election, his prophecy will be entitled to most respectful consideration.

The approach of winter and the consequent necessity for added fuel consumption in Fort Wayne's big commercial and industrial institutions develops the fact that the smoke nuisance has not permanently deserted us, though it has been to a large extent eliminated in certain quarters. Good time for a resumption of activities against it.

PROSPERITY.

(Indianapolis News.)

The trade reports all agree that national prosperity has, no doubt to the surprise of some people, survived the election of a democratic president. The country is to have, not only a democratic president, but a democratic senate and a democratic house of representatives. And yet business men continue to do business, and in increasing volume. "Buying," says Bradstreet's, "is large, and in line that may in the long run feel the effects of protective tariff revisions, business continues heavy, with no talk of cancellations." Dun's weekly trade review says that the improved business outlook "is reflected in the increased buoyancy of the markets and in the continued expansion of trade and industry." "Every department of business experiences," so it is said, "the uplift and expansion which result, first, from the tremendous crops, and second, from the restored confidence and credit." Even the wool men are cheerful, though they know that the wool schedule is certain to be revised—and downward.

As a matter of fact, business men long ago made up their minds that a democratic victory this year was practically assured. They also realized that a reduction of the tariff was certain. So they were not disturbed during the campaign, nor are they disturbed now. More than this, men who have studied

the question realize that industry in this country is far less dependent on protection than it is supposed by some to be. We have in truth outgrown protection, which often operates as a restraint on trade, rather than a promoter thereof. Many duties might be wholly wiped out without in any way injuring the industry affected by them. There has been a great change in this particular, and in many particulars, in the last twenty years. Even then the scare was not over the election of Cleveland or tariff revision, but over the financial situation, as eminent protectionist authorities admitted at the time with perfect frankness.

Men are beginning to see that business, if it is to thrive, must not be dependent on government. We can not afford to make it impossible for any political party in this country to elect its candidates, which, of course, would be the result of the acceptance of the theory that business would be ruined by democratic success.

THE PRESS DISCUSSES MR. TAFT'S UNDOING.

"Wondering and Regretting." Boston Globe: "Many who preferred another at the polls may now and themselves, as Mr. Taft leaves the white house, wondering and regretting that he should have been ordered into retirement."

Tragedies of Politics. New Haven Register: "Too late will

come a reaction in whose revealing light the people will understand that they have not done justly by a president on whom they can place no blame. In a sense, the fate of Mr. Taft is one of the tragedies of American politics."

"Revenge."

New York Evening Post: "Placed in the white house by the grace of Theodore Roosevelt, Mr. Taft is now expelled from it chiefly by Theodore Roosevelt's revenge."

Indianapolis, Ind., Nov. 12.—The state treasury is in a rejuvenated condition financially according to the report of W. H. O'Brien, auditor of state, which was made public today. With approximately \$51,000 less in the treasury balance to begin the fiscal year of 1912 than at the beginning of the fiscal year of 1911 the present state officials met all emergencies during the year ending Sept. 30, 1912, and increased the treasury balance over 1911 balance by \$106,447.95.

The total amount in the treasury Sept. 30, 1911, was \$220,676.90 and the total remaining this year after all bills were paid was \$327,124.85, the report shows. The total net receipts from every source for the year were \$8,334,863.81 and the total net disbursements were \$8,228,315.86. The balance in the treasury apportioned to the various funds, was as follows:

General fund, \$132,658.44; school revenue for tuition, \$84,412.17; state sinking fund, \$477.67; college fund, principal, \$1,110; permanent endowment fund, principal, \$2,065.06; swamp land fund, \$1,017.02; unclaimed estates, \$71,822.02; common school fund, \$1,981.53; sale of state lands, \$17,170.27; reclamation of state lands, \$1,867.65; state hydrophobia, \$5,141.19; escheated estates, \$6,431.93.

GIRL FOILS ROBBERY.

Indiana Miss of Ten Years Drives Tramp Away With Pistol.

Lawrenceburg, Ind., Ethel Baker, ten years old, prevented a tramp from robbing the home of her parents, Mr. and Mrs. Charles W. Baker, last night, by thrusting a pistol in his face and telling him to leave. The father had gone to the home of a neighbor and Mrs. Baker was at the grocery leaving the little girl at home. A few minutes after the parents left a tramp walked into the house and proceeded to make himself at home. The little girl demanded an explanation and reached into a drawer and getting a revolver, ordered the intruder out, threatening to shoot if he did not go at once. The intruder did not stop to argue, and almost carried the door with him in his eagerness to get away.

IN HASTE THIEF DROPS HIS LOOT

Took Jewelry from Stiefel Home—Did Not Get Much.

RING IS RECOVERED

Robbers looted the residence of Louis Stiefel, corner of Nelson and Wayne streets Saturday night and secured several articles of jewelry. Whoever made the haul might have been considerably wealthier except for the fact that in making an exit, a diamond ring, the only article of any considerable value, was dropped just outside the window, and was found Monday morning by Mr. Stiefel.

The burglary occurred Saturday night, and was not discovered until Monday morning. The Stiefel home had just been painted, and the doors and windows were thrown open so that the odor of paint might leave the rooms. Mr. Stiefel was in the basement of his home, doing some work and other members of the family were at the theater. The police were first notified of the robbery Monday morning.

Mr. Stiefel estimates his loss not to exceed \$10. The ring, which the robber dropped, was valued in money at \$150, and was a keep sake, given Mr. Stiefel by his mother. A story was current this morning that the robbers secured several hundred dollars worth of loot.

COLONEL PUTS EMPHASIS ON IT

Roosevelt Declares Progres-
sive Party is Here to
Stay.

BATTLE ONLY BEGUN

New York, Nov. 12.—Theodore Roose-
velt made a formal statement last
night bearing upon the election and the
future of the progressive party. In line
with previous expressions of his own
and of his colleagues, he reiterated
that "the progressive party has come
to stay" and "so far from being over,
the battle has just begun."

The statement was:
"I congratulate the progressives of
this country—that is, I congratulate
these good men and women who, with
sincerity of purpose for the common
good, have had the vision to look into
the coming years and see what the fu-
ture demands from us who work in this
present."
"What the progressive party has done
since the theft of the republican organ-
ization by the republican bosses at Chi-
cago last June is literally unparalleled
in the history of free government,
worked under representative institu-
tions. Three months have gone by since
some hundreds of earnest men and
women gathered to found the new pro-
gressive party. Without much money,
without any organization, against the
wealth of the country, against the en-
tire organized political ability of the
country, against the bitter hostility of
90 per cent. of the press of the country,
against the furious opposition of every
upholder of special privilege, whether in
politics or in business and with the
channels of information to the public
largely choked—the progressive party
has polled between four and four and
one-half million votes; has hopelessly
beaten one of the old parties, both in
the electoral college and in the popular
vote; has taken second place in the na-
tion, and either first or second place in
some thirty-seven of the forty-eight
states. No taint in any way approach-
ing this has before been performed by
any party in our country. Such a feat
performed by volunteers, hastily
brought together and without any pre-
vious co-operation with each other,
against the trained veterans of the po-
litical arena—these trained veterans in-
cluding the entire mercenary forces of
politics—should be a source of pride not
only to those who performed the task,
but to all believers in good citizenship
and in the capacity of Americans for
self-government."

"During the campaign I said repeat-
edly that this was in no shape or way
a one-man movement, but a movement
for great principles—a movement which
has sprung, as all healthy movements
in our democracy must spring, from the
heart and conscience of the people
themselves. This truth must be kept
steadily before the minds of all of us.
The progressive party has come to stay.
If either of the old parties will endeavor
to put into legislation any one of our
plans it can count upon our hearty
support in so doing, but we will not
rest contented until the entire platform
is enacted into law and becomes part
of our political system, national and
state."

"I am proud, indeed, that the great
good fortune has been mine to fight
shoulder to shoulder with the men and
women who in the ranks and in various
positions of leadership have waged this
great battle for social and industrial
justice. So far from being over, the
battle has just begun. We will not
rest content until every feature of the
progressive program has been put into
effect, and when this has been done, un-
questionably there will have opened to
us new avenues along which it will still
be a duty to work for the moral and
economic betterment of our people."

Repeats Advice to Use Men-
tho-Laxene Medicine,
Which Anyone Can Make
at Home Cheaper Than
Labeled Goods—Purer
and Better, Too.

People who've "barrels of money"
probably won't appreciate this advice.
This is for the reader who knows the
value of every five-cent piece, and usu-
ally it saves from 40 to 100 five-cent
pieces for those who are informed. Buy-
ing medicine in drugs costs more than
making a big supply yourself. Buying
ordinary patent medicines means that
you pay too much for syrups, corks,
bottles, labels, cartons, etc. For in-
stance, if you buy a 25-cent bottle of
cough medicine, it contains about two
ounces, four-fifths of which is syrup—
and for 25 cents you can make one-half
gallon of syrup.

By making Mentho-Laxene medicine
at home you save lots of money on
syrup alone, and besides you know it's
pure and quickly effective. Let us prove
that the best and cheapest way to
cure coughs, colds, catarrh and to pre-
vent pneumonia, diphtheria, la grippe, is
to make this fine big supply of medi-
cine, by mixing one-half pint of boiling
water with a pint of granulated sugar.
Then, buy the pure concentrated es-
sence Mentho-Laxene (a 2 1/2 oz. bottle)
empty it into a pint bottle or jar and
fill it up with the syrup. Directions
with each bottle tells how to make and
take, while the manufacturers guaran-
tee to refund money to any dissatisfied
purchaser. You run no risk and will
have on hand a medicine which has never
been equalled for colds, coughs, bron-
chitis, catarrh, hoarseness, etc. Its ton-
ic laxative action puts the entire sys-
tem on a healthy basis and chronic dis-
ease and consumption are avoided.—

How to Beautify Complexion and Hair

To retain a charming complexion,
tender skins need better protection
against harsh, cold winds than is
given by face powder. There is no
finer complexion-beautifier to be had
than a lotion made by dissolving 4
ounces of spumax in a half-pint witch
hazel (or hot water), and adding 2 tea-
spoonfuls of glycerine. While this lo-
tion cannot be detected when applied
to the face, neck and arms, it trans-
forms an ordinary complexion into one
of girlish attractiveness. It does not
show or rub off like face powder and is
much easier to apply. The spumax lo-
tion will clear up and whiten any sal-
low skin and make it youthful and
charming. It is unequalled for overcom-
ing that shiny, greasy look which is so
troublesome to so many ladies.

Quite a risk is taken in using "dry
shampoos," for unless the powder is
entirely brushed out it will clog up
the pores in the scalp and cause dan-
druff. One can shampoo thoroughly
only by using water. As it is danger-
ous to use soap and most ready-prepared
shampoos, owing to the "free" alkali
they contain, which tends to kill the
hair, making it dull, faded and streaky,
most pleasing results will be experienced
from a shampoo made from one tea-
spoonful of cantbox dissolved in a cup
of hot water. This shampoo lathers
splendidly, cleanses thoroughly and dries
quickly. It will stop itching scalp, re-
move dandruff and leave the hair bright,
soft and fluffy. This shampoo has given
such excellent satisfaction that it is
now being used exclusively by many
hairdressers.—Adv.

MUST QUIT WORK BY COURT ORDER

Chicago Man Sentenced to
Refrain from Labor on
Wife's Plea.

CASE IS UNIQUE ONE

Chicago, Nov. 12.—Joseph Girsch, who
lives at 4520 South Paulina street, was
sentenced yesterday to an indefinite
period of idleness by Judge Newcomer.
The terms of Judge Newcomer's decree
were that Joseph was to be returned
forthwith to his residence in the custody
of his wife to eat three square meals a
day and sleep ten hours at night and to
refrain until further notice from all
bodily labor—particularly from the la-
bor of his trade as a molder—under
penalty of being sent to the bridewell.

Court Moved by Wife's Story.
This remarkable decree was uttered
after the court had listened to a story
told by Girsch's wife. Mrs. Girsch had
had her husband arrested on a charge
of disorderly conduct. Her husband, she
said, had beaten her and driven her out
into the street.

"I am a law abiding woman," Mrs.
Girsch told the court, "and I can't stand
Joe's conduct any longer. You'll just
have to put him under bonds to refrain
from working."

"What's that?" inquired the court, sit-
ting up and taking notice.

"I said," repeated Mrs. Girsch pa-
tiently, "that you'll have to put Joe un-
der bond to refrain from work."

"You mean that he's overworking him-
self."

"No, your honor, I mean that he
mustn't work at all. Work doesn't agree
with Joe. He's got to be made to stop
it, if there's to be any peace in our
house."

Mrs. Girsch was weeping by this time.

Pay Days Bring Trouble.

"He's a molder, your honor," she went
on, between sobs. "He's just crazy about
molding. When he gets a job he just
works himself to death, and when he's
paid off he gets drunk and comes home
and beats me. This is the third time he
has attacked me."

"Now, let me get this right," inter-
posed the court. "You say you want
me to issue an order forbidding your
husband to work?"

"That's right, your honor. You see,
I've got plenty of money of my own to
support both him and myself. I own
several buildings, and the rents pay all
our expenses. I love my Joe, but I
can't stand him when he beats me. If
you'll just send him home with orders to
stay away from work, you'll be instru-
mental in keeping us out of the divorce
court."

Judge Newcomer cogitated for a time.

"All right," he said, "it's a little un-
usual, but let the order be issued. Joe,
you go home with your wife, and if I
hear that you're working again I'll
make it unpleasant for you."

Thereupon Joseph and his better half
departed.

Simplicity in Furniture

SIMPLE lines, rather than elaboration, massiveness in place of stilted elegance—these are
characteristics of modern home furniture. Our immense furniture store is largely de-
voted to just such pieces, in the mission and Flanders styles, with early English or fumed
finish. No type of furniture surpasses these in simple elegance and suggestiveness of "solid
comfort." They are particularly adapted to the modern bungalow rooms, the den, and the
large living room with its built-in chimney seats and bookcases.

The Colonial is another type, reflecting the simple life of our forefathers. It is conspic-
uous in our fall displays, particularly in solid mahogany bedroom and dining-room suites. Its
dull finish, wood trimmings and quaint elegance are pleasingly suggestive of other days.

Striking examples of the Colonial period furniture are the bedroom suites of Circassian
walnut. This wood shows up the grain better than any other, and makes a very beautiful,
rich appearance.

Visit our great furniture store. Fall displays are arranged conveniently and we want
you to see them.

Mrs. Heingartner was born in Germany in 1839 and came to Fort Wayne twenty years later, so that for a half century she has watched her adopted home develop into a city of size and importance. Irma Henderson, of Columbia avenue. The guests were a dozen of Miss Long's most intimate girl friends. During the time previous to the supper the guests hemmed fancy towels for Miss Long and not content with giving her those gifts that were varied in kind, besides, the supper table was daintily laid in dainty lace doilies and pink Killarney roses in the center and more roses tied with pink tulle at Miss Long's chair were selected because pink is to be the color note of her wedding which is to take place on Thanksgiving day. The place cards were pretty favors of appropriate design.

Mr. and Mrs. J. A. Durand, of Rowe, were honor guests last evening at a dinner party given by their hosts, Mr. and Mrs. H. P. Moses, of Columbia avenue. There were covers for sixteen, the guests being the members of the Hungry club. The table was prettily decorated with pink carnations. After the dinner the company played a game of five-hundred. Delaney and Mr. John Belger sang the Ave Marie and O Salutaris. The bride presented an attractive appearance, in keeping with her sweet face and unassuming manner, in her stylish and becoming costume. The bride wore her traveling dress, a tailored suit of tobacco brown English diagonal cloth and a blouse of cream net with touches of pale pink velvet about the collar. A beautiful brown velvet hat with a band of pink ostrich feathers and ostrich tips made a lovely color combination. A corsage bouquet of pink roses was the finishing touch.

The Royal society members were delightfully entertained recently at the home of Miss Cora Hitzman. One of the features of the evening was the election of officers, after which a delicious luncheon was served. Those who were chosen as officers were: President, Marie Steury, and secretary, Edna Powers. A bouquet of pink roses and pink gloves completed a pretty costume and Miss Getz looked very handsome. Mr. Joseph Loos, Jr., a brother of the bride, was best man and Mr. Lawrence Frank and Mr. Raymond Getz were the ushers. After the marriage service the bridal party and relatives were served a breakfast at the bride's home. There were covers for twenty at the breakfast, for which Miss Riedel and Mrs. Meisler catered. Milady's Toilet Table

(By Mme. D'Mille)

"For dark and discolored patches, sallowness and complexion blemishes, there is nothing better than a lotion made by dissolving a package of maytane in a half pint of witch hazel. It gives a more youthful color and smoother finish than any face powder, and will not rub off or show. It keeps the skin soft and satiny. If your eyelashes and eyebrows are thin and straggling, or lighter in color than they should be, rub pyroxin into the roots gently with the finger tips. This treatment makes them grow long and lovely."

"On every toilet table there should be a jar of Mother's salve. You can't look your best when suffering, and Mother's Salve relieves pain almost instantly. Rub on affected part for headache, neuralgia, rheumatism, sore muscles, bruises, stiff neck, cold in the chest, or pains and aches in back or joints. "Don't catch cold washing your head. Anyway, water drenches and drenches the hair, and dry shampooing is preferred. To make a fine shampoo powder, just mix four ounces of orris root with a package of genuine throat lozenges. Sift over head, brush out, and your scalp is clean and your hair beautifully lustrous. bright, wavy and easy to do up. "Delatone is the simplest and quickest hair remover known to beauty specialists. Make a paste with a little delatone and water, cover the hairs, let remain a minute or two, wipe off, and the hairs are gone."—Adv.

AT THE MAJESTIC.

"THE CONFESSION."

Interesting Story in Drama at the Majestic.

S. A. Jackson, as Thomas Bartlett, in James Hallett Reid's "Confession," now playing at the Majestic, presents to his audience a striking example of the wild, reckless and happy-go-lucky youth of good family, who finally runs to the end of his string in wrong doing. In all his wayward habits, however, he retains the usual love for his mother, and takes exceptional opportunity to display this mother love, whenever there is a possibility of doing so. Tom Bartlett, as an innocent man, condemned to death for murder, a priest who is his brother, his mother and his sweetheart, are the central figures of this play. Intermingled with other characters are Michael Grogan, played by Marcus Morarity, and George Meyding as Peter Moran, whose principal duty is to relieve the tense scenes by sudden and witty bits of humor.

Tom Bartlett, accused of murdering his sweetheart's brother in a drunken brawl, is found guilty on circumstantial evidence and sentenced to die. While he is in prison, a Frenchman confesses to the priest, Tom's brother, of having committed the murder, thinking the dead man was one who ran away with his sister. The priest dare not tell the governor of the confession, owing to the laws of the religious confessional. During the trial, however, the counsel for the defense succeeds in finding the Frenchman guilty of perjury, as a witness. He is arrested and held in jail. Later he becomes ill and about to die, on the day Tom is to hang, confesses his crime to the governor, who is about to pronounce final sentence on young Bartlett.

AT THE TEMPLE

My, but there's a great show at the Temple vaudeville this week. You'll never say you don't like athletes because the famous American Belfords have an act that for beauty and skill quite takes your breath away for wonderment and admiration. Their act is a beautiful one and many of the postures and turns astonishing. Though not billed at the headliner of the week, the act is not surpassed by anything else.

Salisbury and Benny are the names of a woman who plays the piano as if she had the technique of a Paderewski and a youthful violinist who does various tricks, displaying his skill, talent and natural taste. The act is really quite novel, though it hardly seems possible. The pianist has a musical monologue that wouldn't pass muster in a parlor, but she is clever enough to catch the audience. Dunbar and Turner make a great hit and are artists in their line of work, both as grotesque dancers and in delivering a line of nonsense. Their costuming is exceptionally good and for making of funny faces they may have superiors, but they aren't on this week. The hit is called, "Next."

"The Cat and the Fiddle" is possibly the biggest stage production ever seen in vaudeville. The amount of scenery carried is astonishing and the twenty people who dance, sing, get off the fun and the melodramatic have plenty of do and do it well. The act is a merry one with numerous stage pictures and much scenery presenting "Mother Goose" action and up-to-date buffoonery, of which Ed Gilmore is the leader in a role called "Happy." Mr. Gilmore is more than good and the assistants of chorus and other parts, even the cat, make the act one of excellent and varied entertainment that no one will want to miss.

The Gaumont weekly budget of pictures is especially interesting and Mr. Diecy and his men have made a particular good selection for their opening part of the program.

The contents of slender purses go farther at Foster's than elsewhere.

TEA-MAKING HINTS.

Use water which has just come to the boil, but which has not been boiled before or allowed to simmer on the stove for some time.

Warm the teapot by pouring in hot water a few minutes before the tea is required and allow it to remain in the pot until the tea is made.

Allow one teaspoonful of tea to each person with one extra one. Pour boiling water and allow to stand for three to five minutes.

Fill the teapot or the tea will cool rapidly.

HERPICIDE

There is nothing "just as good" as Newbro's Herpicide. Some dealers will even go so far as to tell you they have something better.

That dealer has an axe to grind. You can't stop his grinding, but you can prevent him grinding it on your expense.

There is one sure, swift way to do it. Go where you can get what you ask for.

You won't be obliged to do this very often, as fortunately the majority of druggists are honest and conscientious. Newbro's Herpicide has been so long and favorably known as the original dandruff germ destroyer that no one should be deceived.

When you need a hair remedy, you don't want one which merely promises to kill the dandruff germ and prevent the hair from falling.

You want one that will do it. Herpicide does it.

The hair becomes soft and lustrous. There is life, snap and beauty where formerly the hair was dead, dull and brittle.

For sale by Bradley Bros. Applications of this wonderful prophylactic may be obtained at the best barber shops and hairdressing parlors.

Send ten cents in postage or silver to The Herpicide Co., Dept. R., Detroit, Mich., for a nice sample of Herpicide and a booklet telling all about the hair.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.—Adv.

Billie Burke

ON A VERY FOOTLESS THING TO DO

(By Billie Burke.)

THE FIRST WORD—When you neglect your feet you are doing wrong to your most faithful and loyal servants.

A couple of friends came into my dressing room the other day. One whom I had not seen in a long time was looking so unhappy and her face seemed so drawn and worn that I simply had to remark about it.

"What's the matter, my dear," I said; "you look heartsick?" My other friend, who is somewhat brusque in her speech, answered: "It's not her heart that is giving her trouble, but her feet."

"We have just come from the chiropodist's and it seems almost incredible to me that Mabel should bear the pain and inconvenience for the length of time necessary for her toe nail to have grown into her flesh to the extent it has done. I never knew she had so much patience."

"The chiropodist seemed to think that I was not quite right in my head," said the unhappy one. "When I told her that for ten years I had split the corners of my toe nail with a pen knife and torn the side out and then

cut the remainder of the nail very short twice every week.

"You don't seem to realize," she told me, "that the nail was placed on the end of the toe to protect the nerves which lie on the surface of the skin there. As the nails upon the toe do not grow as rapidly as those upon the fingers, it is not necessary to file them as often and they should be filed straight across the toe; if there is a tendency for the nail to grow in, there should be a slight depression filed in the center of the nail, leaving it long enough not to destroy the spongy surface below the nail, as this is a special guard to prevent the nail from growing into the flesh."

"How did your chiropodist treat your nails?" I asked.

"She used a small steel book and, after fastening this under the corner and cleaning it out with peroxide, she applied a small piece of antiseptic cotton, using a small curved instrument to place it under the corner," said my friend with the sore toe. "She was very careful not to make this cotton too large, as otherwise it might bruise the inflamed and sore flesh. She said. She tells me this treatment must be taken twice a week until the nail has grown out normally."

"It seems a very simple method," I said, "and one that could be used by any person at home."

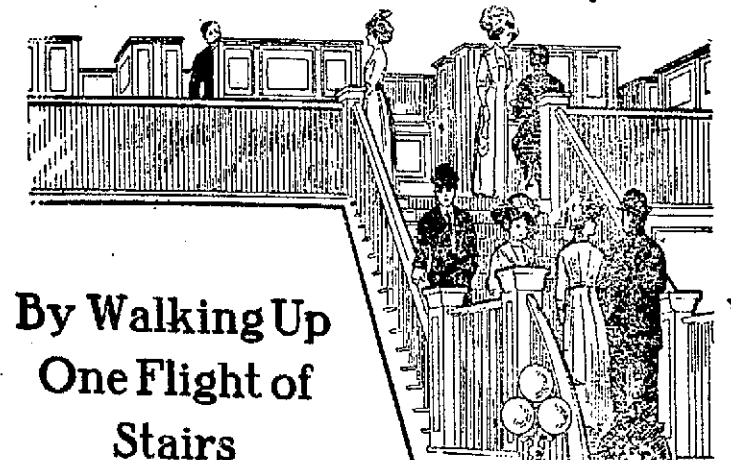

"My chiropodist insists that we should pedicure our toe nails as carefully as we manicure our finger nails, that the cuticle should be loosened and pushed back around the sides. The nails should be filed, carefully scrubbed with a brush and soap and water and all the callous and hanging skin about the nails should be rubbed off with a piece of pumice. My feet feel better than they have for months and I think I will get my erstwhile fine carriage that my friends used to compliment me on. I have been walking like a cripple for two months and all the while thinking that the trouble was too trivial to make a fuss over."

JUST ONE LAST WORD—No bodily ill that keeps the mind engrossed in material things is too trivial to fuss over.

A SOUR, GASSY, UPSET STOMACH

"Pape's Diapepsin" regulates your stomach and ends indigestion in five minutes.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; hunch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

IN THE CITY'S CHURCHES

THE PASTORS OF NORTH INDIANA

Annual Conference Held at
Emanuel Lutheran School
Hall.

A TWO DAYS' SESSION

Eighty Lutheran ministers of the gospel, pastors of the churches in the northern part of the state, are in the city in attendance on the sessions of the North Indiana conference of the denomination, which began at 9 o'clock and continue until Thursday noon.

The conference is the annual meeting of the pastors for the discussion of matters pertaining to their churches and is held at the school hall of the Emanuel Lutheran church, of which Rev. William E. Moll is pastor. The only service held at the church auditorium will be on Wednesday evening, at which time the conference sermon will be preached by Rev. O. A. Shumm, of Elkhart.

This evening the Emanuel Juniors will repeat the entertainment given in the school hall one evening last week, at which time the hall was crowded to the doors. The program is an interesting one and by request it is repeated in honor of the visiting pastors.

The president of the conference is Rev. G. Shumm, of Lafayette, and the secretary Rev. H. B. Kohlmeier, of New Haven. The former has held the office of president for several years.

One of the most important features of the meeting will be the consideration of doctrinal themes, papers on special subjects being read by different pastors and followed by general discussion. While in the city the visiting pastors are entertained at the homes of the members of the Lutheran churches.

The first paper read after the opening session this forenoon was on the subject, "The Private Study of the Minister," given by Rev. H. A. C. Paul, of Goodland, Ind. A general discussion followed that consumed much of the forenoon session.

In his paper the Rev. Mr. Paul set forth the fact that the pastor is a hard worker, and of necessity must be if he would fulfill the sacred duties of his high office. His work, however, should not be that of a general "busybody," a sort of sociable jumping jack, making pastored calls, etc. "It should be the caring for the souls of the people with whom he comes in contact, of administering spiritually to his flock, of giving them the bread of life."

The opening service was conducted by the venerable Rev. S. Schumm, of Lafayette, and the welcoming of Rev. Eggers, formerly a member of the Canada synod. The sessions are held from 9 to 11:30 a. m. and 1:30 to 4 p. m.

that it is proposed to introduce at the meeting of the city council tonight. Elmer Biesel, superintendent of streets, will labor with the weed question next summer and Dr. Eric Crull and his health board force can give their entire time and attention to fly-swating, garbage matters and other matters important to the welfare of the community.

With the assistance of Guy Colerick, his law partner, Mr. Hogan has been looking for a statute under which he can declare one weed a nuisance and a town lot full of them a worse nuisance and if he can dig up enough authorities on the subject and be sure that a penalty can be attached the responsibility for weed culture will be shifted.

He will also complete, if possible, Dr. Crull's measure requiring the presence of spittoons in factories and that will be submitted to the council for their approval.

In addition to this the board of public works will ask for \$2,500 to pay the expense of street cleaning for the remainder of the year and \$800 more for garbage disposal. This latter item is made necessary by the advance in coal rates.

It had been expected that Paul Kinder would tender his resignation as a member of the council at the meeting tonight, but he has announced that he will hold his office as long as he remains a resident of his ward and that he will not move until some time next month. City Clerk Jeffries said this afternoon that he had only routine matters left over from the last session.

Notes of City Hall.

Wells street will be open for traffic this evening as most of the paving has been completed.

An assessment roll for sidewalks on Lillie street has been ordered by the board of public works.

At its meeting tonight with officials of the Lake Erie road the board of public safety will ask some protection for people who cross the tracks at Boone street and may ask a subway for foot passengers or that the right of way be fenced in.

W. H. Geddes, a Wabash fireman who is temporarily working for the Hannan-Hickey Construction company, plunged headlong out of the cab window and struck his head on a rail at 10 o'clock this morning on the elevated tracks at the shops. The fall rendered him unconscious for a moment and he was placed upon a stretcher and carried into the store room where Dr. C. F. Kaadt succeeded in bringing him back to consciousness in a few minutes. Then it developed that Geddes was not injured in the head. He sustained injuries to one of his legs, however, which will disable him a few days, though they are not serious. It was a narrow escape. The accident was due to the arm rest giving way and allowing Geddes to pitch out of the window. He resides in Peru.

BIG CROWD TO BELLEVUE.

Twenty-six Fort Wayne Men to Attend
Safety Meeting.

This evening at 8:30 o'clock, a number of Nickel Plate officials and employees will leave Fort Wayne for Bellevue, where they will take part tomorrow in the organization of a safety committee. In the party from this city will be Supt. S. K. Blair, Supt. H. N. Williams, Trainmaster C. L. Titus, Trainmaster E. S. Kirby, Dr. J. M. Dinnen, Bridge Supt. James Rogers, Assistant Division Engineer G. E. Potter, General Foreman George James, Yardmaster Frank J. Grimme, Supervisor of Tracks R. A. Blair, Police Captain W. T. Angel, Road Foreman of Engines F. M. Baldwin, Freight Agent H. E. Allison, Conductor W. B. Pierce, Conductor C. B. VanMeter, Brakeman N. E. Jones, Brakeman W. C. Florio, Yard Conductor John McVey, Yard Conductor J. H. Brindel, Engineer H. W. Frase, Fireman George Mitchell, Car Repairman Conrad Yaulty, Mechanist Joseph Pan-yard, Engineer Oscar L. Schenker, Fireman M. E. Hacht and Fireman Louis Koers. The party will be supplied with a private sleeping car, which will be attached to train No. 4, arriving at Bellevue about midnight. It will be parked there and the occupants will not be disturbed until morning. As stated by the Sentinel eight or ten days ago, the Nickel Plate safety committee will be in three sections, as follows: The general committee, which will consist of

the higher officers and of which General Manager A. W. Johnston will be chairman; the division committee, composed of the superintendents, trainmasters, maintenance of way men, road foreman of engines, conductors, engineers, brakemen and firemen, and the terminal committee, composed of the general foreman, the yardmaster, yard conductors and switchmen, the shop foreman, machinists and car repairmen. The division committee and the terminal committee will meet once each month and the general committee will meet at the call of the general manager. It will be the duty of each committee to keep a close watch on affairs of its department and to prevent accidents that may result in death or personal injury to patron, trespasser or employee of the company or to loss of property. At the meetings each member will report any change of method or improvement that in his opinion would lessen accidents and improve the service. The Pennsylvania, the Wabash and the G. R. & I. have similar organizations and on the Pennsylvania safety committees have been in existence several years, with the result that the percentage of fatalities, personal injuries and accidents resulting in loss of property have greatly diminished and is growing less each year.

FEDERATION HAS GOOD MEETING.

Barthold Bridge Proposition Up and
Referred to Committee.

The Fort Wayne Federation of Labor had an interesting meet last night when it considered some matters of importance to the entire community, including the Barthold bridge proposition, the alleged violation of the conditions of the franchise of the Fort Wayne & Northern Indiana Traction company and the strike of the pressmen of Chicago. The action upon the street car matter was in the form of a resolution introduced by a committee composed of J. A. Lechler, J. W. Loney, E. W. Heane, H. U. Resner and Joseph Shaw and after reciting several ways in which the street car company has not wholly or in part complied with the provisions of its franchise, it asks that the city officials see that the contract is carried out to the letter. The resolution was adopted. The Barthold bridge came before the federation in the shape of a resolution introduced by the representative of the Machinists' union and after some discussion it was referred to the legislative committee. The reading of a communication from the Chicago Federation of Labor asking endorsement of the Pressmen's strike in that city brought forth considerable discussion, which finally ended in deferring action until the American Federation of Labor, now in annual session in Rochester, N. Y., renders a decision on the question of controversy. Representatives of Typographical Union, No. 78, asked the cooperation of the Federation in the interest of the playgrounds benefit vaudeville to be given December 2 and 3. Joshua Brady, who is here in the interest of the Bartenders, delivered an address last night and announced that he would address local bartenders at a meeting to be held at Carpenters' hall Sunday afternoon.

Magical Effect of
New Face Peeler

(Woman's National Journal.)

To maintain a clear, rosy, youthful complexion there's nothing so simple to use and yet so effective as ordinary mercurized wax, which you can get at any drug store. Just apply the wax at night as you would cold cream; in the morning wash it off with warm water. If you've never tried it you can't imagine the magical effect of this harmless home treatment. The mercuride in the wax causes the worn-out sear skin to come off in minute particles a little at a time, and soon you have entirely shed the offensive cuticle. The fresh young under-skin now in evidence is so healthy and girlish looking, so free from any appearance of artificiality, you wonder why you had not heard of this marvelous complexion-renewing secret long ago.

To get rid of your wrinkles, here's a formula that is wonderfully effective: 2 oz. powdered sassafras, dissolved in 1 pt. witch hazel. Bathe the face in this and you will be simply astonished at the results, even after the first trial.

result in permanent injury.

WABASH SAFETY COMMITTEE.

Monthly Meeting Held at the Anthony
Today.

The monthly meeting of the division safety committee of the Wabash was held at the Anthony hotel today, Supt. J. C. Sullivan presiding. Since the last meeting a new member has been added, M. H. Russell, recently appointed road foreman of engines, succeeding A. F. King, is the new member. Mr. King, who is now assistant trainmaster, continues to be a member of the safety committee and was at the meeting today. Others who are members of the committee are G. W. Smith, C. E. Wells, C. E. Dale, W. S. King, P. A. Thompson, R. A. Mesmore, J. T. Cullen, Michael Lumm, J. T. McPartland, J. C. McFehan, R. E. McNally, C. F. Malcolm, J. W. Loney, J. S. Rizer, A. W. Metsker, W. C. Nickel, L. Arland, G. W. Harris and E. A. VanTrece.

LOST PART OF THUMB.

William F. Meyers Victim of Painful
Accident.

Machinist William F. Meyers, of the Wabash shops, had the tip of his left thumb crushed off this morning. He was in the act of removing a valve when the bar slipped and caught his thumb between it and a part of the machinery he was working upon. Dr. C. F. Kaadt says the bone was not broken.

STENOGRAPHERS PROMOTED.

P. V. Leavy, G. B. Jensen and E. W.
Koehl Lucky Ones.A change affecting three young em-
ployees of the Pennsylvania in a bene-
ficial way will take place in a few

days. Peter V. Leavy, for some time stenographer in the master mechanic's office, will be promoted to a clerical position with Shop Clerk J. H. Hobrock; G. B. Jensen will succeed Mr. Leavy and E. W. Koehl, stenographer in the erecting shop, will go to the round house to succeed Mr. Jensen as stenographer to Foreman Frank Fitzpatrick.

FINE WEATHER FOR RAILROADING.

As a result of the uncommon fine weather for this time of the year nearly every one of the older engineers and firemen on the Pennsylvania are working steadily. The locomotives are given large tonnage and, although the traffic is heavy the number of trains is few and there is not enough work to suit some of the regulars. As a result the through freight crews have been reduced from eighty-six to eighty and the extra crews from twenty-six to twenty. This made it necessary to set back twelve engineers who had been on the extra list to firing passenger locomotives and others were furloughed. A little bad weather, however, will result in recalling to their original places all of the men affected by this reduction.

SCHOOL CLOSING THIS WEEK.

The school of instruction for engineers and firemen that has been in progress for two or three weeks at the Pennsylvania round house, with Assistant Road Foreman of Engines O. E. Maxwell as the teacher, will close this week. This school is for the purpose of instructing the engineers and firemen upon all matters connected with their work, including the operation of the air brake apparatus and the steam heating of trains.

REMINDED OF BIRTHDAY.

A box containing two big "yellow-legged" roosters received by J. G. Deibold last Saturday brought to mind an epoch in his life that otherwise would have passed unnoticed. The chickens were accompanied by a note of congratulations, that day being the anniversary of Mr. Seibold. The present came from W. T. Seibold, of Converse, Ind., a son of J. G. Seibold. The latter is a checkman at the Nickel Plate freight house.

PAVING SHOP YARDS.

Men are now engaged in putting down a concrete and brick pavement in the driveways, walks and open space which compose the shop yards of the Fort Wayne Electric works. The work is being pushed with the intention to complete it before cold weather sets in.

OFF ON BUSINESS TRIP.

Vice President C. T. Strawbridge and Salesman R. J. Fisher, of the Bass Foundry and Machine works, left at noon today, on the Wabash Continental limited, for St. Louis. Thence they will go to Peoria and Chicago before returning home.

EDWARDS FOUND OUT SOMETHING

Colored Man Couldn't Imagine What the Officer Arrested Him For.

THE CITY COURT CASES

Ito Edwards, colored, was fined \$5 and costs in the city court this morning for drunkenness, although he couldn't see why Officer Brandt arrested him. Edwards was drunk last night and used offensive language on the street, and this combination never fails to arouse the wrath of Judge Mungovan. Edwards' fine was paid.

Adolph Kohleron, charged with assault and battery on a fellow workman at the new St. Joseph hospital building, drew a continuance during good behavior.

George Blake was fined \$5 and costs on a charge of vagrancy. Karl Felker and Joe Evert, charged with public intoxication, were given \$1 and costs apiece.

Daniel Goldsmith, a young traveling man, got too much on board last night and ran amuck at the Wayne hotel. He tried to clean out the place, but the attempt was unsuccessful. Judge Mungovan gave him a good lecture and let him go. Bill Paffinger fell off of the water wagon last night and got a glorious souse on, but he promised to be good after this and he was given another chance.

The case against George Bennett for wife desertion, was continued indefinitely. He promised to go back and live with his spouse.

John Gatons, charged with petit larceny, drew a continuance until tomorrow morning. His bond was fixed at \$200. John is charged with stealing a bicycle belonging to Ross LaMar.

Harry Sheldon, charged with vagrancy, was turned over to Humane Officer Schlandroff and was taken to the county poor farm.

Mr. Jas. V. Churchill, 30 Wall St., Auburn, N. Y., has been bothered with serious kidney and bladder trouble ever since he left the army, and says: "I decided to try Foley Kidney Pills as they had cured so many people and I soon found they were just the thing. My kidneys and bladder are again in a healthy condition. I gladly recommend them." Many an old soldier has never recovered from the effects of army life. Foley Kidney Pills are tonic in action, quick in results. The genuine in a yellow package. Dreier Drug Co.—Adv.

INJURIES CAUSE DEATH

Auto Accident Fatal to Mrs. Calvin Crow, of Zanesville.

Mrs. Calvin Crow, residing three miles north of Zanesville, died shortly after mid-night from injuries sustained in an automobile accident Sunday evening. Her husband was also seriously injured and is unconscious at the family home, not expected to survive.

Mr. and Mrs. Crow were returning home from Fort Wayne in their machine. About one mile from Zanesville Mr. Crow turned to avoid a rut in the road and lost control of the machine, which left the road and turned turtle, pinning both occupants beneath the wreckage.

Mrs. Crow was a sister of Mrs. John H. Harber, of this city. She was a daughter of Mr. and Mrs. Swank, of Pleasant township, and was well known in Fort Wayne.

Mrs. Peter Holan, 11501 Buckeye Rd., Cleveland, O., says: "Yes, indeed I can recommend Foley's Honey and Tar Compound. My little boy had a bad case of whooping cough, some times he was blue in the face. I gave him Foley's Honey and Tar Compound, and it had a remarkable effect and cured him in a short time." Remember the name, Foley's Honey and Tar Compound and do not accept any substitute. Children like it, grown folks are quickly helped by it, and it contains no opiates. Dreier Drug Co.—Adv.

NEXT ONE MAY BE WILSON GIRL

Washington Sees Some Possibilities in White House Brides.

ALL BACHELOR MAIDS

Washington, Nov. 12.—The advent of a presidential household with three marriageable daughters forming a part of it—something unprecedented—arouses Washington society to speculation as to the possibility of one or more white house weddings during the Wilson administration.

Although the Wilson sisters are known as "bachelor maids," there is ever a tendency toward romance in the lives of the younger occupants of the historic mansion, and therefore the possibility that one or more of the Wilson girls will bring about a change of title.

A delver into the romances of the mansion has called attention to the old thirteen superstition by discovering that the next white house bride will be the thirteenth. Alice Roosevelt, the last white house bride, was the twelfth. The one before that was Frances Folsom, who became Mrs. Grover Cleveland. Emily Platt, a niece of President Hayes, was married in the white house during her uncle's administration to General Russell Hasting. The wedding of Nellie Grant to Algonon Sartoris was one of the most famous of white house weddings. Still going backward there was the marriage of Elizabeth Tyler, daughter of President Tyler, to William Waller of Virginia, in 1842.

During President Jackson's administration three weddings took place in the white house, those of Della Lewis of Nashville and Alphonse Pageot, a member of the French legation; Mary Easton, a niece of Mrs. Jackson, and Lucien B. Polk, and Emily Martin, a relative of the president, and Lewis Randolph.

The first white house wedding was in 1811, when Mrs. Madison's younger sister, Lucy Payne Washington, widow of a nephew of George Washington, was the bride.

The question asked now is whether one of the Wilson girls will float superstition and become the thirteenth white house bride.

John Bowie, 341 French street, was struck by a Lewis street car while riding a bicycle across Main street on Ewing street yesterday. He was thrown to the pavement and picked up by the car crew, his kneecap having been dislocated. Mr. Bowie failed to notice the rapid approach of the car and tried to pass in front of it.
